

## CERTIFIED VEHICLE - LEASING PROGRAM

Used vehicle leasing is more affordable and more flexible than buying.

### More Car for Less Money

Lease payments are lower than loan payments — making it possible for you to drive a vehicle you might not be able to afford otherwise.

### No Long-Term Commitments

Lease terms are shorter than most purchase agreements — and at the end of the lease, it's easy to switch to another vehicle.

### More Flexibility

Trade in or purchase the vehicle during the lease term or purchase or turn in the vehicle when the term ends.

## Protection You Can Trust - INCLUDED!

### Includes Trusted Sale CPO Program

Vehicles pass multi-point safety & mechanical inspection & road test and covered by a comprehensive limited warranty.

### Customer & vehicle are protected

Program includes GAP coverage and an extended service contract to protect against total loss or costly future repairs for the full term of the lease.

## Routine Maintenance - INCLUDED!

The program includes two (2) high-grade synthetic oil changes and tire rotations for each year you lease the vehicle. Plus, you can bring your vehicle in for service to any mechanic or shop you choose.

Other scheduled maintenance services (e.g. 75K mile inspections, brake replacements, AC system checks, etc.) can be included at an additional cost per month.
